SCUDO

BEAUTIFUL BATHROOMS

Crafting a seamless synergy between performance and aesthetics, Scudo creates bathroom spaces which exude style and sophistication, whilst delivering an unbridled ambience of total relaxation and tranquillity.

Blending modern innovation with the timeless appeal of classic bathroom design, every piece in our stunning shower and bath tap collection is made to deliver lasting durability, straightforward functionality and unparalleled beauty, to the most important room in your home.

Boasting the ultimate collection for any bathroom, our product ranges are made to last, with the highest quality metals utilised throughout, many of our products are designed and manufactured to surpass most of the world's sanitary ware standards. From traditional handmade furniture to the black sleek brassware to the glistening modernity of stainless steel finishes, every fitting is made to measure and ready made to add instant panache to any 21st century home.

We refuse to settle for second best and that is why we only provide you with the products we would want in our own bathrooms. We know that our customers expect different things of their bathrooms. Some require space saving fittings; others seek to combine the modern with the traditional, we feel our product ranges can satisfy every modern or traditional home. With Scudo, you can guarantee a service and collection which will meet and exceed all your bathroom needs.

Whether seeking luxury designs to bring pampered decadence into the bathroom or finding the perfect combination of modern design and crafted elegance, Scudo's eclectic range of beautiful bathrooms are guaranteed to make your next bathing experience one to remember.

All of our products are covered by a lifetime guarantee. See website for details.

S6 SHOWER ENCLOSURES

RANGE FEATURES

CUSHIONED COLOUR MATCHED MAGNETIC DOOR SEALS

Scudo magnetic-door seals guarantee a soft and controlled closure of the door every time. With a modern, colour-matched sheen, their aesthetic finish is matched only by their superior practicality.

ONE PIECE STYLISH HANDLE

Stylish and modern, each stainless steel handle is wonderfully sympathetic to the high quality finish of the entire range. Featuring modern art styling, the stainless steel handle stands as a testament to the exquisite design featured across the entire range.

QUICK RELEASE BOTTOM RUNNERS

Bringing absolute practicality to the range, the entire sliding door collection includes a quick release mechanism, allowing the door to swing away from the frame for direct access to all areas of the shower; ideal for simpler and thorough cleaning.

PROFILE COVER CAPS

Scudo specialise in stunning design whilst maintaining a focus upon bathroom safety. As such, their chromed cover caps provide the perfect protective finish to the exposed aluminium edges of the outer frame.

QUALITY ASSURED

Stylish modern and sleek designs, crafted from quality materials to last a lifetime. Scudo are the only option for people who truly know how to create a beautiful bathroom.

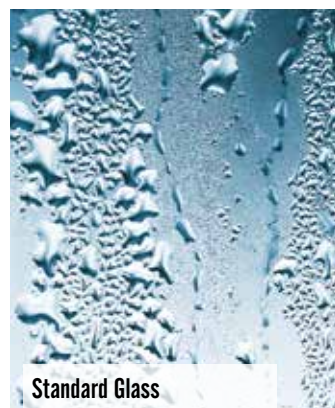

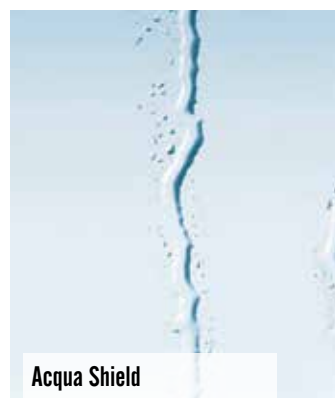

ACQUA SHIELD

GLASS CLEANING TECHNOLOGY

As a standard sign of performance and quality, Scudo Acqua Shield is expertly applied to all shower enclosures in this range. By forming a protective bond with the glass during the manufacturing process, Acqua Shield creates an invisible barrier against lime scale, soap scum and general bacterial build-up.

Standard Glass

Acqua Shield

DESIGNED IN THE UK FOR UK HOUSEHOLDS

With a strong ethos for serving the needs of UK customer base, our product engineers boast the experience and expertise in designing shower enclosures for the most popular British brands of the past 10 years. As such, we understand the conditions and expectations our designs must meet in order to last, both aesthetically and functionally, ensuring quick and easy installation for installers without any restrictions on quality and longevity for our end users.

ACQUA SHIELD GLASS CLEANING TECHNOLOGY

As a standard sign of performance and quality, Scudo Acqua Shield is expertly applied to all shower enclosures in this range. By forming a protective bond with the glass during the manufacturing process, Acqua Shield creates an invisible barrier against lime scale, soap scum and general bacterial build-up.

Scudo Acqua Shield also goes to work with environmental and economical savings, as its long-lasting defence against daily grime ensures a noticeable decrease in the ongoing need for bathroom cleaning products.

S6+ SHOWER ENCLOSURES

RANGE FEATURES

CUSHIONED COLOUR MATCHED MAGNETIC DOOR SEALS

Scudo magnetic-door seals guarantee a soft and controlled closure of the door every time. With a modern, colour-matched sheen, their aesthetic finish is matched only by their superior practicality.

ONE PIECE STYLISH HANDLE

Stylish and modern, each stainless steel handle is wonderfully sympathetic to the high quality finish of the entire range. Featuring modern art styling, the stainless steel handle stands as a testament to the exquisite design featured across the entire range.

QUICK RELEASE BOTTOM RUNNERS

Bringing absolute practicality to the range, the entire sliding door collection includes a quick release mechanism, allowing the door to swing away from the frame for direct access to all areas of the shower; ideal for simpler and thorough cleaning.

PROFILE COVER CAPS

Scudo specialise in stunning design whilst maintaining a focus upon bathroom safety. As such, their chromed cover caps provide the perfect protective finish to the exposed aluminium edges of the outer frame.

QUALITY ASSURED

Stylish modern and sleek designs, crafted from quality materials to last a lifetime. Scudo are the only option for people who truly know how to create a beautiful bathroom.

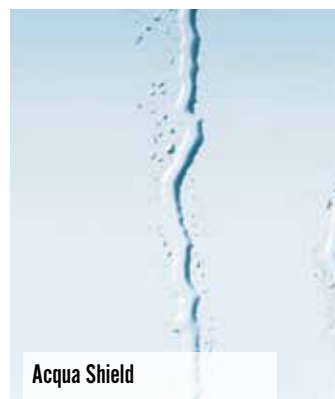

ACQUA SHIELD

GLASS CLEANING TECHNOLOGY

As a standard sign of performance and quality, Scudo Acqua Shield is expertly applied to all shower enclosures in this range. By forming a protective bond with the glass during the manufacturing process, Acqua Shield creates an invisible barrier against lime scale, soap scum and general bacterial build-up.

Standard Glass

Acqua Shield

DESIGNED IN THE UK FOR UK HOUSEHOLDS

With a strong ethos for serving the needs of UK customer base, our product engineers boast the experience and expertise in designing shower enclosures for the most popular British brands of the past 10 years. As such, we understand the conditions and expectations our designs must meet in order to last, both aesthetically and functionally, ensuring quick and easy installation for installers without any restrictions on quality and longevity for our end users.

ACQUA SHIELD GLASS CLEANING TECHNOLOGY

As a standard sign of performance and quality, Scudo Acqua Shield is expertly applied to all shower enclosures in this range. By forming a protective bond with the glass during the manufacturing process, Acqua Shield creates an invisible barrier against lime scale, soap scum and general bacterial build-up.

Scudo Acqua Shield also goes to work with environmental and economical savings, as its long-lasting defence against daily grime ensures a noticeable decrease in the ongoing need for bathroom cleaning products

60MM OF ADJUSTMENT

The S6 Plus Range is designed to suit all possible situations, sometimes bathroom installers over-tile /or real stone tiles and grout and mean we don't know what size enclosure we need until the bathroom is tiled. The S6 Plus range was designed as a solution to these problems.

1900MM HEIGHT

Designed to compliment the recent trend of thinner shower trays and wetroom floor, the S6 Plus stands at an amble 1900mm.

S6 ACQUA ARM BATH SCREENS

S6 ACQUA ARM BATH SCREENS

The Acqua Arm Bath screen Range is answer to providing a multi-panel screen, which is easy to store or extend whilst creating an effective bath screen seal. The Acqua Arm offers a cushioned seating position against the bath top as it drops down to create one long seal, leaving the panels to be located with ease as they are not in contact with the bath top.

This technology has also been used to great effect in our single panel bath screen, providing a solution to people who want a watertight solution to a bath screen in a larger bathroom where the screen does not need to be folded away.

RANGE FEATURES

- > Watertight Acqua arm
- > 6mm toughened safety glass
- > Frameless modern design
- > Acqua Shield glass treatment
- > Lifetime guarantee
- > Large adjustment for out of true walls and easy installation

CONFIGURATIONS

All screen fittings are universal. i.e. Either Left or Right handed, creating one continuous seal. The 4 Panel screen dimensions when in the folded away and stored position have a Depth of 72mm x Width 220. The 5 Panel screen dimensions when in the folded away and stored position have a Depth of 75mm x Width 250.

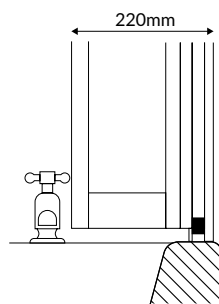

QUALITY ASSURED

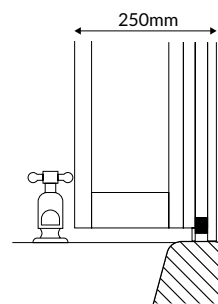

Stylish modern and sleek designs, crafted from quality materials to last a lifetime. Scudo are the only option for people who truly know how to create a beautiful bathroom.

As a standard sign of performance and quality, Scudo Acqua Shield is expertly applied to all shower enclosures in this range. By forming a protective bond with the glass during the manufacturing process, Acqua Shield creates an invisible barrier against lime scale, soap scum and general bacterial build-up.

Hand made by craftsmen in the UK from 100% natural stone resin.

RANGE FEATURES

ADJUSTABLE HEIGHT AFTER FITTING

All our Rigid Riser showers are adjustable after fitting with the exception of the Traditional Shower. This feature allows you to adjust the head of the fixed shower head up and down to suit different users from children to adults.

HIGH QUALITY METAL SHOWER HEADS

Our Showers all benefit from high quality chrome plated metal fixed shower heads instead of a cheaper plastic alternative

QUALITY THERMOSTATIC COMPONENTS

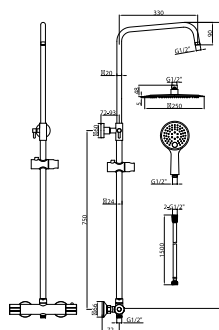

All of our thermostatic showers are built with quality cartridges from trusted manufacturers using European technology.

MESSI ROUND COOL TOUCH RIGID RISER SHOWER

PUSH BUTTON CONCEALED VALVES

- > Concealed Valves for a modern minimal look
- > Recessed for a streamlined appearance
- > Multi Control functions
- > Ceramic disc technology for a smooth operation
- > Precise and safe thermostatic control
- > 100% brass construction body and trim set
- > Solid brass face plate
- > All Concealed Valves are WRAS approved

IS A SINGLE BUTTON VALVE RIGHT FOR YOUR INSTALLATION?

- > Easy to operate - the top button controls the shower accessory, with the bottom control adjusts the temperature.
- > A simple shower solution - the twin shower will operate one shower accessory, for example a fixed head or a slide rail kit.
- > Protection against accidental scalding.

Features

- > Manufactured from solid brass.
- > Suitable for water systems between 1 to 4 bar pressure.
- > Suitable for all water systems.
- > Thermostatically controlled.
- > Built-in anti-scald device.
- > Suitable for use with shower pumps.
- > Lifetime guarantee.

Installation must sit within an 88mm cavity.

IS A TWIN BUTTON VALVE RIGHT FOR YOUR INSTALLATION?

- > The top button is to control the first shower accessory, the middle button controls the second. The bottom control adjusts the temperature.
- > A flexible shower solution - the two button valve allows you to have two shower accessories, which you can operate independently or at the same time.
- > Protection against accidental scalding.

Features

- > Manufactured from solid brass.
- > Suitable for water systems between 1 to 4 bar pressure.
- > Suitable for all water systems.
- > Thermostatically controlled.
- > Built-in anti-scald device.
- > Suitable for use with shower pumps.
- > Lifetime year guarantee. We suggest 1.5 bar of pressure to operate 2 shower accessories simultaneously.

Installation must sit within an 88mm cavity.

IS A TRIPLE BUTTON VALVE RIGHT FOR YOUR INSTALLATION?

- > Ultimate Flexibility - the three button valve allows 3 shower accessories to be controlled independently, or simultaneously.
- > Protection against accidental scalding.

Features

- > Manufactured from solid brass.
- > Suitable for water systems between 1 to 4 bar pressure.
- > Suitable for all water systems.
- > Thermostatically controlled.
- > Built-in anti-scald device.
- > Suitable for use with shower pumps.
- > Lifetime year guarantee. We suggest 3 bar of pressure if you want to use all 3 shower accessories simultaneously.

Installation must sit within an 88mm cavity.

SINGLE ROUND PUSH BUTTON CONCEALED VALVE

CONCEALED011 £245.00
Operating Pressure 1 Bar

Installation must sit within an 88mm cavity.

SINGLE SQUARE PUSH BUTTON CONCEALED VALVE

CONCEALED014 £245.00
Operating Pressure 1 Bar

Installation must sit within an 88mm cavity.

TWIN ROUND PUSH BUTTON CONCEALED VALVE

CONCEALED012 £278.50
Operating Pressure 1 Bar

Installation must sit within an 88mm cavity.

TWIN SQUARE PUSH BUTTON CONCEALED VALVE

CONCEALED015 £278.50
Operating Pressure 1 Bar

Installation must sit within an 88mm cavity.

TRIPLE ROUND PUSH BUTTON CONCEALED VALVE

CONCEALED013 £323.00
Operating Pressure 1 Bar

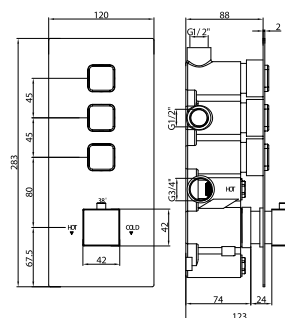

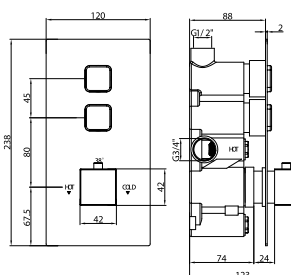

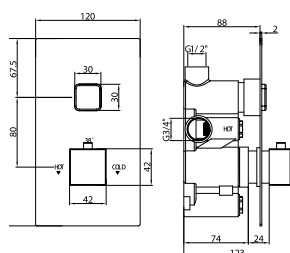

Installation must sit within an 88mm cavity.

TRIPLE SQUARE PUSH BUTTON CONCEALED VALVE

CONCEALED016 £323.00
Operating Pressure 1 Bar

Installation must sit within an 88mm cavity.

All these products are WRAS and TMV 2 approved

LED MIRRORS & CABINETS

RANGE FEATURES

HEATED DEMISTER PAD

All of our mirrors come with heated demister pads enabling you to use the mirrors in steamy bathrooms. The pads heat the mirror to above room temperature which stops mist appearing on the mirror.

INFRARED ON/OFF SWITCH

Some of our mirrors and cabinets are built using no-touch on/off switches. By simply moving your hand under the sensor the mirror can be turned on and off without the need for a pull switch or leaving fingerprints on the mirrors.

LANDSCAPE & PORTRAIT MOUNTING

All of our mirrors can be hung portrait or landscape (excluding LED-MIRROR003). By doing this the on/off switch would be moved from the bottom of the mirror to the side of the mirror.

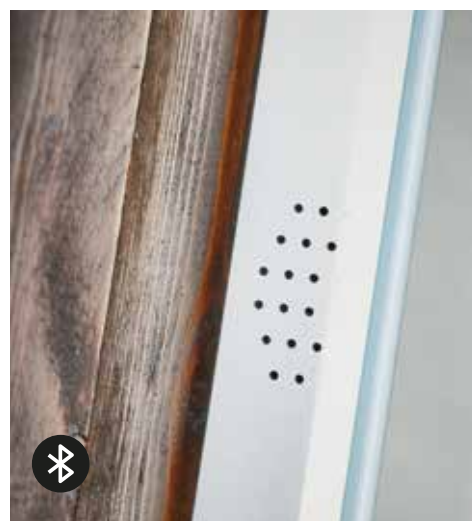

SHAVER SOCKET

Build-in charging socket suitable for toothbrushes, shavers and trimmers.

DOUBLE-SIDED MIRRORS

Some of our cabinets are available with mirrors on the inside as well as outside.

BLUETOOTH™

This innovative feature allows any Bluetooth™-enabled device to stream music or live radio to the mirror. Available only on LED-MIRROR004.

IP44 RATED CLASS 1 RATED

All mirrors are IP44, Class 1 Rated and suitable for installation in zones 2 or 3 of a bath/shower room.

EASY TOUCH COLOUR CHANGE

All Scudo mirrors are built using an ultra-modern no-touch on/off switch. The light can be turned on and off by gently touching the sensor on the glass. The colour of the light can be changed from warm white to bright white by touching the sensor and waiting until the desired colour is reached. The mirror will then remember your preferred colour setting.

SAFETY GLASS

5mm thick mirror. Safety film backed with sealed mirror edges.

ROSSINI FURNITURE RANGE

FURNITURE

ROSSINI RANGE FEATURES

The Rossini Range is our latest modern freestanding furniture range. We based the ranges design around its beautiful European ceramic basins, it's angular yet soft curves are mirrored in the cabinets design.

Not only is the Rossini range pleasing on the eye, but a few important details ensure its also a pleasure to live with in your home. The Rossini's doors are a luxurious 25mm thick, to give the doors a high quality feel which is complimented with soft closing doors.

The high quality lacquer finish is also repeated inside so the feeling of a darker painted unit isn't ruined by a clashing white interior. The Rossini range comes in a 500mm and 600mm wide vanity unit and a matching WC unit, all three colours are made in a high quality lacquer finish

MURO FURNITURE RANGE

FURNITURE

MURO RANGE FEATURES

The compact depth of the Muro wall hung collection makes it a perfect match for the average family bathroom. All 3 Basin sizes are made from a high quality stonecast basin, topped with an anti-bacterial high gloss finish.

The unit is available in a choice of popular colours and features a metal drawer, soft close sliding mechanism. This mechanism ensures a controlled smooth closing action and great storage space for your bathroom essentials.

One of the Muro Range's highlights is the solid chrome handle which sits on top of the drawer. Its high polished chrome finish gives a real feel of quality when opening the drawer.

The Muro Tallboy offers a huge amount of storage in a compact design, whilst the WC unit is a compact and discrete way of continuing a furniture design in your bathroom.

BELLA FURNITURE RANGE

FURNITURE

BELLA RANGE FEATURES

The Bella range of furniture spans both floor standing and wall hung options.

Choose between a more compact 600 width basin or a more luxurious 900 size. Both basins are made from a high quality stonecast basin, to ensure the sweeping lines are crisp and clean and topped with an anti-bacterial high gloss finish.

All Bella units feature a high quality metal drawer box mechanism, meaning the action of the sliding drawer will remain smooth and stable throughout its life in your home.

Available Finishes

High Gloss White

Bardolino
Driftwood Oak

Graphite Grey

Indigo Blue

BELLA FURNITURE RANGE

FURNITURE

BELLA RANGE FEATURES

The mechanism is soft closing with a smooth and controlled closure. The complimenting Tall boy unit offers huge storage space for toiletries, and is perfect for large families.

All of the wall mounted furniture features adjustable, high quality hangers to ensure your furniture can be installed easily and can withstand the daily use in a busy family bathroom.

DESIGNED WITH QUALITY IN MIND

Since our companies conception, we have been known for our high quality brassware products. All of our ranges are manufactured with quality components chosen for their longevity. A large selection of our product range is now also WRAS approved which is the ultimate seal of approval that our products have been tested to last by an independent governing body. Even though not all of our ranges carry WRAS approval they are all manufactured with the same parts and are from the same manufacturing facility, so you can be safe in the knowledge that just because a particular range hasn't been chosen to seek approval, all of our ranges are designed and manufactured so that if we need to seek approval on all our products- we would be able to do so.

LIFETIME GUARANTEE

We are confident in our products and we want our customer to be, we proudly give a lifetime guarantee on our taps and showers, further details can be found on our website.

UNDERFLOOR HEATING

SCUDO ESSENTIALS

- > Simple installation
- > Approvals & Guarantee on mats
- > Approved by Installers
- > Low profile, uniform spacing & evenly distributed heat
- > Large selection of sizes
- > Fluoropolymer (PTFE) insulated
- > Heating cable safety
- > Design & installation flexibility

Clearly shown in the diagram above, the heat source generated from the Underfloor system provides a far more efficient heat distribution pattern, cutting down on the time and money needed to achieve a comfortable environment.

The IP (Ingress Protection) Standard describes a uniform system for classifying the degrees of protection provided by the enclosures of electrical equipment.

For example, if a bathroom light is rated IP65, then the 6 means its 'Protected against dust' and the 5 means its 'Protected against water jets' from a shower, tap or cleaning processes from any direction.

First numeral - protection against ingress of foreign bodies, e.g. tools, dust, fingers, etc.

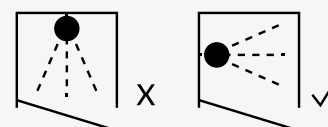

- 0 No protection
- 1 Protected against solid objects with a diameter of 50mm and over (e.g. accidental insertion of hands)
- 2 Protected against solid objects over 12mm (e.g. jointed fingers)
- 3 Protected against solid objects over 2.5mm (tools)
- 4 Protected against solid objects over 1mm (small wires)
- 5 Protected against - limited ingress permitted (no harmful deposit)
- 6 Totally protected against dust

Second numeral - protection against ingress of liquids.

- 0 No protection
- 1 Protected against drops of condensed water. Drops of condensed water falling on the enclosure shall have no harmful effect
- 2 Protection against drops of liquid. Drops of falling liquid shall have no harmful effect when the enclosure is tilted at an angle up to 15 degrees from the vertical.
- 3 Protection against rain. Water falling in rain at an angle equal or smaller than 60 degrees with respect to the vertical shall have no harmful effect.
- 4 Protection against splashing. Liquid splashed from any direction shall have no harmful effect.
- 5 Protection against water jets. Water projected by a nozzle from any direction under stated conditions shall have no harmful effect.
- 6 Protection against conditions on ship decks (deck equipment). Water from heavy seas shall not enter the enclosures under prescribed conditions.
- 7 Protection against immersion in water. It shall not be possible for water to enter the enclosure under stated conditions of pressure and time.
- 8 Protection against indefinite immersion in water under specified pressure. It shall not be possible for water to enter the enclosure.

Need further information or advice? Please contact customer service on 0844 324 9061

Professional plumbing practice ensures that a shower head is never installed facing outwards towards the shower enclosure/door as shown in the diagram. Limitations of design and physics dictate that water will inevitably leave a shower enclosure/door if large amounts of water are purposely directed at seals or gaps between aluminium and/or glass. If doors swing out into a bathroom and the glass is still wet, water will drip down onto the floor, please ensure floor coverings are suitable for bathrooms and are not affected by water.

Whether seeking luxury designs to bring pampered decadence into the bathroom, or finding the perfect combination of affordability and crafted elegance, Scudo's eclectic range of beautiful bathroom products are guaranteed to make your next bathing experience one to remember.

Prices included in this brochure supersede all previous printed publications. Products and prices are correct at time of printing. We reserve the right to change prices at any time without notice.
